

Character Element. Related policies can also be found in the Public Facilities and Services Element; Agricultural and Economic Development Element; Conservation and Open Space Element; and Health and Safety Element.

**C. Policy Framework**

**GOAL CI-1      Comprehensive and Coordinated Transportation System. Plan, develop and maintain a comprehensive, coordinated transportation system to ensure the opportunity for safe, efficient and convenient movement of persons and goods.**

Policy CI-1.1      Ensure future county transportation routes are consistent with the planned improvements shown in the Circulation Element Diagram.

 Policy CI-1.2      Preserve and continue to develop a fully-connected grid-based circulation system that distributes traffic evenly and avoids excessive concentrations of traffic in any given area. 

 Policy CI-1.3      Reduce the total vehicle miles of travel (VMT) per household by making efficient use of existing transportation facilities and by providing for more direct routes for pedestrians and bicyclists through the implementation of “smart growth” and sustainable planning principles. 

Policy CI-1.4      Continue to work with Caltrans, SACOG and other regional agencies to achieve timely construction of freeway, interchange, highway and county road improvements that are consistent with this General Plan.

Policy CI-1.5      Program and spend available transportation funds to maximize the use of federal and other matching sources.

Policy CI-1.6      Maintain the county roadway network through a regular maintenance program that prioritizes improvement projects based on available funding.

Policy CI-1.7      Coordinate with other local governments to maintain commonly-owned infrastructure (e.g. County Line Road, Freeport Bridge, Putah Creek bridges).

Policy CI-1.8      Work with adjoining landowners to reduce roadway flooding.

Policy CI-1.9      Establish road maintenance districts, where appropriate, to provide a stable source of funding for repairs and roadway improvements.
